Garrett Hogan

SENIOR FRONTEND ENGINEER

www.ragtagthrone.com | ragtagthrone@gmail.com | github.com/garretthogan | linkedin.com/in/garretthogandev

Passionate software engineer and problem solver with more than 10 years of experience building internal tools, dashboards, workflow systems, creative design software, and browser based interactive apps. Strong front end background across JavaScript, React, Vue, Angular, Three.js, and WebGL with experience planning and shipping ambiguous products.

SKILLS

Front End: JavaScript/TypeScript, React, Vue, Angular, Vite, Nextjs

Interactive / 3D: Three.js, WebGL, Unity, Unreal Engine

Collaboration: Jira, Confluence, GitHub, Perforce, Google Analytics, Splunk, Figma, Canva, sprint planning, code review, production support

EXPERIENCE

Senior Frontend Engineer, Havoc

Aug 2026-Present

I work on the frontend of a command-and-control system for managing autonomous vehicles.

- Technology stack: React, TypeScript, Node.js, Mapbox, and MapLibre.

Senior Software Engineer, Nike

2015-2026

In my time at Nike I led front end work across Nike internal tools for product launch operations, digital commerce visibility, creative workflows, WebGL product visualization, and AI-assisted design prototyping.

- Delivered and maintained a dashboard for SNKRS web launch operations, supporting product releases through feature work, planning, bug fixes, and onsite launch support.
- Helped create a reusable React component library for Nike internal tools, reducing duplicated UI work and improving consistency across dozens of teams.
- Built real time commerce dashboards for checkout, inventory allocation, payment failures, insufficient funds, and transaction state visibility.
- Improved creative production and WebGL tooling for Nike design teams, including color/material workflows, rendering fixes, Angular support, custom shader logic, and AI prototyping.

INDEPENDENT WORK

Wardboard / Ward 311

wardboard.vercel.app

Civic data dashboard for exploring Chicago 311 service requests by ward, with filtering and summaries for neighborhood service patterns.

Flipspace

flipspace.app

Browser-based commercial space planning tool for small offices, clinics, dental practices, and service businesses evaluating layout fit before lease or buildout decisions.

Deck Dynasty

deck-dynasty.vercel.app

Playable football roguelike card battler prototype with turn-based red zone strategy, card resolution, opponent behavior, onboarding, and progression.
